DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Wales School is located on the west side of Tanyard Road approximately six-tenths of a mile north of Hog Island Road, southwest of Bethlehem, Caroline County.

The structure has a church-like appearance constructed of frame and siding, with a one story, three bay main section and a small gable roof vestibule. The vestibule is one bay deep with a 6/6 window on both sides and a single entrance on the gable front. The gable front of the main section has a pointed arch window in the gable and a molded cornice that returns at the corners. The main section was originally only two bays deep, but a third bay has been added and each bay has a 6/6 pane sash window with a flat wood shelf lintel. A single brick stack is located in the middle of the roof ridge.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The building on the North Wales property is significant as a late 19th century small frame structure used originally as a school, prior to the consolidation of the schools in Caroline County. Later research should show whether this was built prior to the introduction of public education in the county or whether it was actually the efforts in the private realm.
